## Research Interest

I am interested in studying changes of the atmospheric general circulation across timescales, especially over the upper troposphere and lower stratosphere, where dynamical, radiative, chemical and thermodynamical processes are tightly coupled. As a core developer of GFDL's atmospheric model AM5, I am leading the model development related to the stratosphere. I have developed and implemented schemes that yields better representation of the ozone-circulation coupling as well as the non-orographic gravity waves. I have also been developing and analyzing the aquaplanet global atmospheric model at the horizontal resolution varying from O(100km) to O(1km), which provides unique opportunities to study the complex coupling of the Earth system across timescales.

## Employment

<b>Research Physical Scientist</b>	2024-2025
NOAA/OAR/GFDL	
<b>Professional Specialist</b>	2022-2024
Princeton University, Program in Atmospheric and Oceanic Sciences/GFDL	
<b>Associate Research Scholar</b>	2015-2022
Princeton University, Program in Atmospheric and Oceanic Sciences/GFDL	
<b>Postdoctoral Research Associate</b>	2013-2015
Princeton University, Program in Atmospheric and Oceanic Sciences/GFDL	
Understanding the temperature trends in the upper troposphere and lower stratosphere. Advisor: Yi Ming and V. Ramaswamy.	
<b>Graduate Reserach Assistant</b>	2006-2013
University of Washington, Department of Atmospheric Sciences	

## Education

<b>Ph.D. Atmospheric Sciences</b>	Mar 2013
University of Washington, Seattle, WA, USA	
Thesis: Understanding changes in the stratospheric circulation from observations and simulations	

Advisor: Qiang Fu

**B.S. Atmospheric Sciences**

Jun 2006

Peking University, Beijing, China

Thesis: Baroclinic wave packet in a modified quasi-geostrophic two-layer model

Advisor: Benkui Tan

## Services

**AMS committee on middle atmosphere** : Member 2022-2024, Vice Chair 2025-2027.

**Program Chair** : 22nd Conference on Middle Atmosphere, American Meteorological Society, 24-28 June 2024, Burlington, VT.

**Session Co-convenor** : Stratosphere-troposphere coupling and links to climate across time scales, 104th Annual Meeting, American Meteorological Society, 28 January - 1 February, 2024, Baltimore, MD

**Reviewer:** WMO/UNEP *Scientific Assessment of Ozone Depletion: 2018, 2022*

**Proposal Reviewer:** National Science Foundation, Vienna Science and Technology Fund, German Research Foundation.

**Reviewer:**

*Nature Climate Change, Bulletin of the American Meteorological Society, Journal of the Atmospheric Sciences, Journal of Climate, Journal of Geophysical Research, Geophysical Research Letters, Journal of Advances in Modeling Earth System, Quarterly Journal of the Royal Meteorological Society, Atmospheric Chemistry and Physics, Climate Dynamics, Journal of the Meteorological Society of Japan, Advances in Atmospheric Sciences, Annales Geophysicae, International Journal of Climatology, Journal of Meteorological Research, Theoretical and Applied Climatology, Weather and Climate Dynamics.*

## Invited Lectures

NASA/GSFC Atmospheric Chemistry and Dynamics Laboratory seminar	May 2019
University of Reading Meteorology Departmental Seminar	Oct 2016
Columbia University SEAS Colloquium in Climate Science	Oct 2015
Peking University Atmospheric and Oceanic Sciences Colloquium	Aug 2014
Columbia University SEAS Colloquium in Climate Science	Apr 2014
University of Washington Atmospheric Science Colloquium	Mar 2013
Geophysical Fluid Dynamics Laboratory Seminar	Jul 2012
Peking University Atmospheric and Oceanic Sciences Colloquium	Feb 2012
University of Washington Atmospheric Dynamics Seminar	Oct 2009

## Teaching Experience

**Teaching Assistant** ATM S 111: Global Warming 2009

University of Washington, Department of Atmospheric Sciences

Create and grade homework assignments and exam questions, lead weekly discussion sections, hold office hours.

*Professor:* David S. Battisti

## Computer Skills

**Operating systems:** Linux, Windows, Mac OS.

**Programming languages:** MATLAB, Fortran 77/95, Python, NCAR Command Language, IDL.

**Document preparation:** L<sup>A</sup>T<sub>E</sub>X, Microsoft Office Suite, OpenOffice suite.

## Professional Memberships
